

# ALERT

## אזהרה חמורה

Following our ongoing investigation, we have found that as a result of design changes implemented by the manufacturers **NEFF, Bosch** and **Siemens\*** (BSH Group) **after May 2020**, many of their ovens are **NOT COMPLIANT** with the halochos of Shabbos and Yom Tov even when operating in “Sabbath mode”.

FedTech advise members of the Kehilla **ONLY** to use an oven on Shabbos and Yom Tov if it carries a hechsher or has been checked for Shabbos compliance by a competent technician.
